

CONSTRUMAT - THE INTERNATIONAL BUILDING SOLUTIONS EXHIBITION

The eighteenth edition of Construmat - the international building solutions exhibition - will be held in the Gran Via exhibition centre in Barcelona from 21 to 24 May 2013.

Construmat 2013 will bring the leading building projects from emerging markets such as Brazil, Mexico, Argentina and Chile to Barcelona. Major industry innovations will be premiered at the event. The exhibition also includes a congress with expert participants from Spain and around the world, who will meet to discuss the current status of issues such as innovation, sustainability and energy efficiency in the building industry and architecture.

Construmat 2013 will comprise three sections: Foro Contract, Construmat Innovation and the Building Solutions World Congress.

The CNAPPC has signed an agreement with the Barcelona exhibition centre allowing free entry to Construmat 2013 to all architects belonging to professional associations if they use the access code EN4URSDB

The agreement also offers a 30% discount on the cost of participation in the Building Solutions World Congress that will take place during Construmat, by using the access code ENTUJSAB.

Comprehensive information about the event is available from the official website <http://www.construmat.com/> and from <http://www.awn.it/>
