## + & + EXHIBITS AND LOUNGE

**New Horizon of Japanese Architecture**

**ARCASIA Today: Contemporary Architecture and the Heritage of Asia Region**

**29th June – 21st July**

**at Cavallerizza Maneggio Chiablese**

**events location during off-congress nights UIA 2008**

The location, close to Piazza Castello, during the XXIII World Congress of Architecture, would be transformed in a melting pot of cultures, happenings and curiosities.

The event is included in off-congress calendar and it is an idea and realization of CASARTARC in partnership with JOB Japan Organizing Board UIA 2011.

Two exhibits, provided by Asian partners, would embrace the empty hall of Cavallerizza that, night by night, would be filled with Congress guests.

Relations, exchanges, cultures would knot inside the space, thought in order to invite meetings and curiosities.

On the wall some pictures would offer the opportunity to taste the Japanese creativity in the field of architecture.

Suspended panels would present the ARCASIA Association exhibit, a rich overview on historical and architectural heritage and on new tendencies of Asian countries.

The ceramic lounge (by Refin), presenting fantastic decorations on Krizia design, would have the double function of dining and stage where short interviews would take place.

The Pecha Kucha Night would give to Japanese and Italian architect the opportunity to present in an original way their projects.

**Torino, Cavallerizza Maneggio Chiablese, Via Verdi 9**
